

# BR62

## Front Access Battery Cabinet

- Multiple battery configurations available
- Assortment of powder coat finishes
- Quick turn-around times
- ETL, CSA and UL 1778 listed
- Additional options to suit your needs

C&C Power manufactures a wide variety of battery cabinets for telecom and UPS applications.

The BR62 can hold up to forty 620 watt or eighty 200 watt batteries. This battery cabinet features a hinged front door for easy access.

Both front and rear access are provided to batteries, and the BR62 is a Nema 1 cabinet constructed from heavy gauge steel with added gussets and supports to retain squareness and integrity during harsh shipping and handling conditions. Adjustable rails are provided standard to allow for multiple battery configurations and facilitate battery upgrades in the future.

Dimensions: 50"W x 78.7"H x 25"D  
Empty Cabinet Weight: 730 lbs
