

# Landing Cabinets

## Battery Cabinet Accessories

- More power in less space
- Parallel multiple battery cabinets
- Multiple capacity configurations
- Welded heavy gauge steel construction
- Available in multiple powder coat finishes

C&C Power's Landing Cabinets provide a convenient means for paralleling multiple battery cabinets. Landing Cabinets are provided with landings for two hole compression lugs for battery positive, battery negative, and ground. A circuit breaker accessory terminal block is also provided.

Landing Cabinets are available in multiple current capacity configurations ranging from 1500 amps to 4500 amps.

Landing Cabinet Configuration Table			
Model	Dimensions	Current Capacity	Cabinet Model
95440-15	30.5"W x 78.7"H x 31.5"D	1500A	UBC40
95440-30	30.5"W x 78.7"H x 31.5"D	3000A	UBC40
95440-45	30.5"W x 78.7"H x 31.5"D	4500A	UBC40
