

S-Series Battery Trays

Battery Solutions

- 500 pound capacity for 23" shelf
- 350 pound capacity for 19" shelf
- Ideal for monobloc style batteries
- Welded heavy gauge steel construction
- 19" or 23" rack configurations
- Black powder coat finish

The S-Series Battery Trays are designed to hold almost any type of batteries. Each tray is constructed of heavy gauge cold rolled steel with a durable black powder coat finish.

The S-Series trays come in both a 19 inch and a 23 inch model and are available with power cables with 2 pole quick disconnects for isolating individual strings during system maintenance. The 19 inch model can hold up to 350 pounds and the 23 inch model can hold up to 500 pounds.

Part Number Configuration

91305 - 20 B 1
1 2 3 4

1. S-Series Battery Tray Base Model Number

91304 = 19" Tray
91305 = 23" Tray

2. Cable Size

02 = #2
04 = #4
20 = 2/0
40 = 4/0

3. Lug Clearance Hole Size

A = #10
B = 1/4"
C = 5/16"

4. Strings per Tray

1 = One String
2 = Two Strings

*Note: Use -0000 for empty tray configurations
