

Maintenance Bypass

90820 Series Maintenance Bypass Breaker Cabinets

FEATURES:

- ▶ Available in 35k or 65k AIC ratings
- ▶ Two distribution breakers
- ▶ Three bypass breaker design
- ▶ 18" wide free standing design
- ▶ Multiple system configurations
- ▶ Compact design minimizes footprint
- ▶ Listed to UL 891 and CSA certified

C&CPower offers Maintenance Bypass Breaker Cabinets available in multiple configurations. The 90820 Series MBBC allows the end user to safely isolate the UPS from utility power and from the load to perform regular service and maintenance.

All of this is done while still maintaining power to your critical load. The C&C Power matching cable raceway/landing box allows for top and bottom feed applications in the UPS. Listed to UL 891 and CSA certified.

Specifications
