

Landing Cabinet

90824 Series AC Landing Cabinet

FEATURES:

- ▶ 6000A current capacity
- ▶ Arrives fully assembled
- ▶ Welded, heavy gauge steel construction
- ▶ More power in less space
- ▶ Available in multiple powder coat finishes

C&CPower's 90824 Series Landing Cabinets provide a convenient means for paralleling multiple AC power sources.

The Landing Cabinets are provided with copper busbars for each phase including a ground bus. The bus bars are configured to accept two hole compression lugs. Common uses are for paralleling multiple large generator systems or other AC sources.

Landing Box Configuration Table		
Style	Dimensions	Weight
90824 Series	48.0"W x 84.0"H x 48.0"D	875 lbs
